Automating Emergency Messaging for Montana

Emergency communications
   The right content
     To the right people
       RIGHT NOW
         Wherever they are
           No matter what.

Continuity of Government – *seamless authority and governance*

Continuity of Operations – *maintain services and employee communications*

Disaster Response – *interoperability for first and secondary responders*

Disaster Recovery –*state, local and tribal agency communications*

Redundant Back-up – *for state computer and communications networks*

In Louisiana, Florida and New York, they thought they had it and really didn't.

In Montana, we know we need it and don't have it – yet.

For more information and to obtain updates on impending legislation, contact JD Lynch at (406) 491-1861.
